

Kalpanath Selvaraja

Undergraduate Student · BSc in Computer Science

IJSE – Institute of Software Engineering

Colombo, Sri Lanka | github.com/kalpanath | linkedin.com/in/kalpanath

TECHNICAL SKILLS

Languages	Java · JavaScript · HTML · CSS · SQL
Frameworks	JavaFX · jQuery · Bootstrap
Databases	MySQL · PostgreSQL

PROJECTS

Inventory Management System

Java · CLI · Arrays

A command-line stock management system featuring login, supplier management, category management, and item tracking. Built within a single-class constraint as part of ITS1010 Programming Fundamentals.

POS Application — Customer Management SPA

JavaScript · jQuery · Bootstrap · HTML · CSS

A web-based Single Page Point of Sale application with full customer, item, and order management. Features modular architecture, form validation, local storage, and a responsive dark-themed UI.

Personal Portfolio Website

HTML · CSS · JavaScript

A dark-themed responsive developer portfolio with multi-page layout, scroll animations, an exercises showcase with iframe preview, and a gallery section.

EDUCATION

BSc in Computer Science

2023 – Present

IJSE – Institute of Software Engineering, Colombo, Sri Lanka

ABOUT

Undergraduate computing student with a passion for building clean, functional web and desktop applications. Interested in full-stack development, problem solving, and learning new technologies. Comfortable working with both frontend interfaces and backend logic.
